

Pharm-Ed : a hospital pharmacy educational and collaborative platform for developing countries

Sandrine von Grünigen¹, Prof.Pascal Bonnabry^{1,2}

¹Pharmacy, University Hospitals of Geneva (HUG), Geneva, Switzerland

² School of Pharmaceutical Sciences, University of Geneva, University of Lausanne, Geneva, Switzerland

Context

Lack of access to specialized training in hospital pharmacy

Insufficient or inefficient pharmaceutical services in health facilities, impairing patient safety and quality of care

Objective

To Strengthen competences and promote exchanges on good hospital pharmacy practices

Conclusion

Preliminary evaluation showed promising results

Priority:

- Collaboration with experts to develop new lessons
- Enhance exchange of experience among the community
